COMPANY INTRODUCTION

MECH WELD C&S SDN. BHD. was founded and registered on November 14, 1998 as an engineering and construction company in Malaysia. Since then, MECH WELD C&S SDN. BHD. has been rapidly growing in mechanical engineering and construction industries.

Due to developments in the country, the company is now fully equipped with knowledge, techniques, experiences and expertise to meet any challenges in engineering and construction field.

The company has dedicated their best jobs all over Malaysia without compromising the quality of the projects. So far the company had successfully executed various projects since January 1996.

OUR CAPABILITIES

- ✚ Steel Structure Fabrication and Erection Works
- ✚ Mechanical Installation Works for Power, Gas, Cement & Chemical Plants
- ✚ Provide Manpower for Modification Works of Steel Structure in Oil & Gas Plants
- ✚ Installation of Built in Anchor Bolt, Template and Insert Plate for Oil & Gas Plants

POLICY STATEMENT

MECH WELD C & S SDN. BHD. offers the project construction through its project team assisted by the skilled/experienced work force and technical expertise.

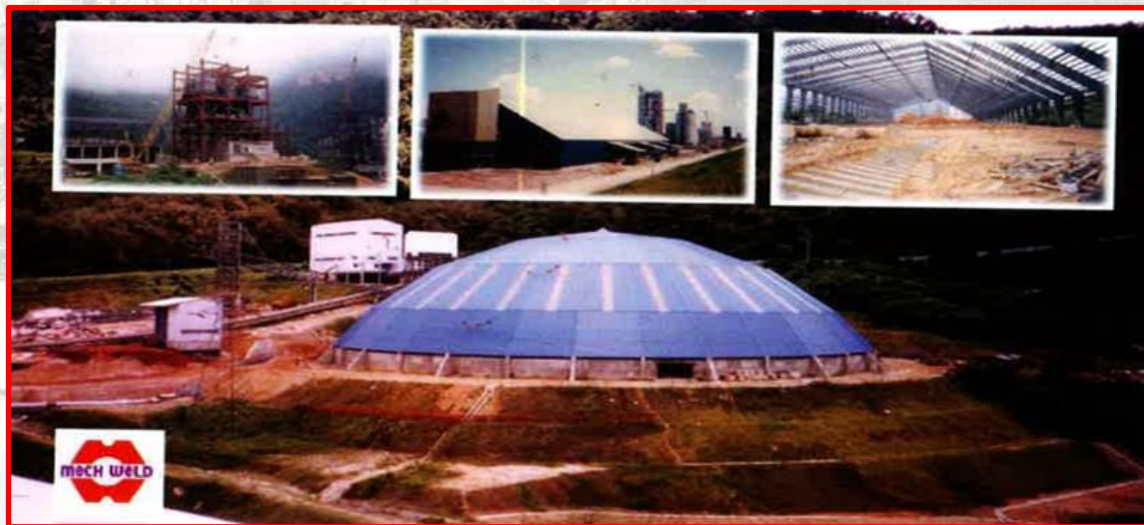

The services provided shall demonstrate the highest level in the construction industry through a document Quality Plan based on its contractual obligation and applying to comply with established International / National Standards, Quality System and Safety features.

It is MECH WELD C&S quality objective to meet its contractual obligation to its clients and to provide value for money.

It is responsibility of the Managers to ensure that all briefing, planning, design specification, construction supervision and final inspection is carried out in accordance with the procedures described in the relevant Quality Plan and where indicated, to abide by the supporting and associated documentation.

To ensure the success of the Quality System each member of the management staff must be fully conversant with the procedures which affect his/her particular area of involvement and, in order to achieve that objective, each individual must be fully aware of all aspects of the system and have access to all necessary documentation.
